He says the preachers in the Association can do the work and he proceeded to discuss the Associational mission in destitute places. Bro. Hendon spoke in argument for his point and argued that it was better for the Association to employ a Missionary than to depend on the pastors of the Association to do this work.

Moved and carried that the employing of a Missionary for the destitute fields be left in the hands of the Executive Committee. Bro. Moderator said he would appoint the executive board later on.

At 3 p. m. the subject of Foreign Missions was taken up and Bro. He spoke of China and Japan and other heathen countries. Bro. Ashcraft spoke of the destitution of the neighborhood of Florence, and had asked Bro. Crumpton to send them a Missionary and now they are on a higher plane because the Master heard the cry. Bro. Hendon spoke and said he wanted to read a letter from a Chinaman, reading "I had always worshiped idols, but I heard the gospel preached by Dr. Yates and they would not receive me because I sold rice on Sunday. I quit it and they received me, and I continued and I prospered and became a wholesale merchant, and now I sometimes preach, but I am only a Deacon." Comstock spoke in his usual style, with great force, and said, like people, like priest. Bro. Lynch again made some fine points on the great subject. Bro. Briscoe spoke on this subject like the smooth running water, and like the still and low muttering sound heard from the distant thunder, and like the heart-beat, throb, throb like the great denomination heart, he moved the passions of the people. Bro. Hendon spoke and said he wanted this Association to give to missions the sum of \$300.00, he talked so earnestly that they began to pledge.

#### REPORT OF VARIOUS COMMITTEES.

(A) We, your committee on Foreign Missions, would submit their report. This subject is perhaps of as much importance as any that engages the mind of the church at this time, because it is the means

that God has ordained for spreading the gospel of life over all the world, and thereby the light of Salvation to the lost. God himself gave us the example when the world was lost in sin. He sent a missionary Baptist to the earth to herald the news of a coming Savior who came and accomplished his mission. Organized his church and gave them the gospel of salvation and with it the solemn charge that they should preach it in all the world and in obedience to this command we have received this gospel and hence the obligation to give it to others and today a thousand million people are looking to us for light and the cry is heard from every corner of the earth almost, "come and help us." Oh, that we might feel the responsibility of our relation to this subject, today we have consecrated men and women on the field in China, Italy, Brazil, Mexico and Japan who need our help not only our prayers but money and men to better enable them to cultivate the field. Will we help? J. M. ROBERTS, Chairman.

(B) Home Missions: We, the committee on Home Missions, beg leave to submit the following report, viz. Realizing as we do that our Baptist Zion has been laboring for years in the United States and Cuba to give the gospel to the perishing and furthermore realizing that God has opened the door and in token of our thankfulness to God and love for perishing souls the Home Board has been ordered by the Southern Baptist Convention to double the working force in Cuba that we may burst the bonds of Catholicism that has held that people under the iron yoke of ignorance and sin so long, and lead them out into the light and liberty of the children of God. Oh, brethren, if you knew the work that has been done by that noble, consecrated man, (Powel, of Mexico,) in Cuba surely you would come to the rescue of this, the most important of our boards. Respt.,

W. A. TURNAGE, Superintendent.

(C) State Missions: We, your Committee on State Missions, beg leave to report as follows: At no time in the history of our board has the board a more encouraging outlook for work in the future. At the last report of the work to the State Convention the board reported an indebtedness of several hundred dollars. The work was very discouraging indeed and Dr. Bledsoe, the secretary, resigned. For some time the board was without a secretary, consequently the work was neglected to a certain extent. The light of a brighter day has dawned upon us, God in his infinite goodness has dispelled the cloud of gloom. Since our last association all boards have been consolidated under one head, namely: State Board of Missions. Under the wise forethought of the board and guidance of God. A new secretary was employed and no mistake was made when the services of our wise leader and consecrated servant, W. B. Crumpton, were secured. He is now in the field and greater things are already beginning to be accomplished. During the recent debt paying campaign our board was freed from all indebtedness. The shackles have been torn off, the

Ark enlarged and never before was our denomination more hopeful. It is a long conceded fact that Alabama is fast developing into a cotton goods manufacturing state. Large mills are going up in many towns. This brings many people in our state, the larger portion of which are ignorant and unable to support the gospel. It was therefore necessary for our board to look after these places. This is mainly the work of the board. More destitute places are being reached than ever before. Let us endeavor to spread the gospel through our entire State. We need to take courage and move on. Let this Association stand by our board and its noble secretary in every forward movement.

Respectfully submitted,

T. F. HENDON, Chairman.

G. L. KEENUM.

J. R. WARHURST.

(D) We, your Committee on Education, report favorable, there is an advance on all scientific and literary lines since our last meeting. The State has increased the public school fund, there is more interest manifested by parents, to educate their children, the children themselves are making stronger efforts, and we are having a better grade of teachers. We would advise all to avoid trashy books and papers. We recommend our Trinity high school, Morgan county, Alabama.

Chairman admits the inserion of the recognition of Howard College at Birmingham, and Judson Female College at Marion.

Now brethren, this wisdom of men, for it is of men. The Bible says, is foolishness before God. In other words no man can depend upon science, or art, or even morality, to be saved. These are simply the effect, of the wisdom of God which cometh down from above.

J. R. NESMITH, Chairman.

(E) Report on Missions—destitute: Miles travelled, 50; sermons preached, 14; churches organized, 1; members, 6; number joined, 5; amount collected, \$5.00; balance due, \$7.50. Church organized was named Barton.

W. A. TURNAGE.

(F) Report on Associational Missions: Your committee beg leave to report the following: We are glad that our Association is keeping pace with the times, Christ said, "Ye shall be witnesses unto Me both in Jerusalem and in Judia and in Samaria, and unto the uttermost part of the earth." The plan adopted by the executive board has worked well and to a certain extent has accomplished the desired end. We believe, however, that this plan is not sufficient to cover the entire field. Some brethren have done good and effective work. We further believe that the volunteer plan on the part of the pastors is not sufficient to cover the entire field. In the face of the facts before us namely, that the harvest is great and the laborers few. The destitution of the field, and need of the gospel. We therefore recommend that a strong man be placed in the field as Associational Missionary to be supported by the Association

Respectfully submitted,

T. F. HENDON.

(G) We, the Committee appointed on time and place of the next meeting of the Colbert Association, beg leave to report that the next meeting shall be held with Riverton church and the time shall be Thursday before the third Sunday in September, 1900, and the introductory sermon be preached by Bro. A. W. Briscoe. Alternate—Bro. John M. Roberts. R. W. HINNIGAN, Chairman.

(H) Report on Orphanage: To bring before our people the claim of our orphanage needs only to say that it is the home of the homeless. No institution fostered by our denomination is more justly entitled to a liberal support. The plea of the orphan touches a responsive chord in the heart of the most unfeeling. There can be but one explanation to the question of a deficient treasure in this work. That of neglect upon the part of pastors. Any church will contribute to this cause if its needs are explained and its claims presented. This institution is located at Evergreen, Alabama, under the supervision of Geo. W. Stewart, a man in whom the orphan finds a friend next to that of parent and a man of whom a nobler hearted christian could scarcely anywhere be found. We recommend that each pastor in this Association bring before his church the claim of this institution and sees to it that regular collections for its support are taken.

Respectfully submitted,

A. W. BRISCOE.

(I) Colportage: We, your Committee on Colportage find no reports on this great subject, and would suggest that the Moderator take steps to see that this work be put into action, by having some one, or more, to give at least some time and attention to colportage. May God guide us into the path of active duty along this line.

O. E. COMSTOCK, Sr.

BRICE LEDBETTER.

(J) Sunday Schools: Since the beginning of Robert Raik's first Sunday school, established by him a century or more ago, there has been wonderful work done for the Master's cause. You may take up any religious paper and you will always find in it something good about the Sunday schools. In our estimation there is nothing that helps children on as fast to understand the wonderful word as the Sunday schools and the godly teachers. The Sunday school teachers hold a high place among christian workers. Indeed, they are hardly second to any save only the pastor and preacher, and stand close to these in the character of their work. The teacher himself has hardly realized the greatness of his position and his influence, and also his work as a teacher. It gives to him a class whose making and moulding lie largely with himself. He bears to them the wonderful message of the gospel; he lays upon the mind and heart the doctrine of the Lord Jesus, unfolding to them the wonders of dying love and saving power. He sees them turn to the Lord. This leads to the higher work of training in the Lord for the Lord's work. "Take heed unto thyself, and

unto the doctrine; continue in them, for in doing this thou shalt both save thyself, and them that hear thee." But the teacher is something more than a teacher. He is a member of the church and sustains important relations to all church life and church work, as well, also, to all great denominational enterprises. His work as teacher however faithfully done does not complete his round of duty or fill up the measure of his responsibility. What he shall be to his pastor, to members of his church, to the church itself as an organized christian life, to our missionary enterprises, to all our educational interests, this is a great matter to be laid upon his heart and mind. And the holding of his class along these great lines is of utmost moment. But in addition to this, in the nature of things the teachers in our Sunday schools constitute a large part of the directing force in our churches. Not always, but frequently they are the balance of power in church meetings, in determining what shall be undertaken in the church, so give character and tone to its very life and work. It is therefore of the utmost importance to have them well trained in doctrine and religious work and denominational life. When we look back over our helpers in the Sunday school work, we call to mind some of our best workers and we hope it will not be encroaching on your time too much when we tell you of some of them who have stood by the superintendent, working faithfully tho' the trials and struggles seemed dark with him and them. There in our school at Tuscombria the memory of Sisters Chitwood, Shackelford and Turner and that of our late pastor.

"Speak about them at this time  
from memory—Eulogizing."

(K) Temperance: This question, as it has ever been, one of vital importance and should enlist the careful thought and co-operation of every man and woman whether christians or not, as it relates to the use, sale and manufacture of intoxicating beverages it becomes the momentous question of the age. In the deadly trail of the liquor traffic we find woe, misery and desolated homes. How long will the wail of widowed mothers and orphaned children go unheeded by the christian people of this land? How long will we give consent by silence and vote to a business that is annually carrying to drunkards graves and drunknesses kill more than sixty thousand of our people per year. The responsibility of arresting and destroying the power and influence of this deadly enemy rests upon the christian people in every land and country. We note with pleasure that most all the corporations and business industries are putting the seal of condemnation upon the use of intoxicating drinks, whether from business or philanthropic principle it is having a wonderful influence and shall we, to whom God has committed the teaching of His sacred word that declares no drunkard shall enter heaven, not join hands with them in destroying this great evil. It is the sentiment of Colbert Association

that every christian should use every means consistent to create and build up such a strong public sentiment against the use, manufacture and sale of intoxicating beverages that no saloon can find a place to deal out its deadly poison.

(L) Report on State of Religion: We, your committee, beg leave to submit the following report on the state of religion. first, we find in looking over our Association Letters that we have made some advances toward the betterment, since the last meeting of this body. But we are sorry to say that in nearly two-thirds of the letters reported, have little of the spirit of missions in their church. We recommend to these churches that they see to this the most important thing in their churches, thereby helping the state of religion. Second, we are sorry that so few Sunday schools are reported as evergreen schools, and we earnestly and prayerfully ask them, in the name of our Master, to throw out this life-line to the little ones and bring them into this, the open door to the church. Third, we find but two churches in this Association that report prayer-meeting service in their churches. We earnestly ask the pastors of these churches to forward this important service, and the state of religion will grow like the green-bay tree as in times of old. Brethren let us take new zeal in every department in our churches and go forward to a higher plane and give the Lord all the praise, looking forward for greater results in the future.

C. A. WOMBLE, Chairman.

(M) Your Committee on Deceased Ministers would submit the following report: It is our sad duty to record the death of Bro. Ray S. Fleming, pastor of the Baptist church at Tuscumbia, on the 18th of October, 1898. Identified with every interest of his church, loving, faithful and true to his people, and consecrated to the service of his Master, he exerted an influence for good that cannot be estimated. While we humbly submit to the will of Him who doeth all things well we feel we have sustained an irreparable loss in the death of Bro. Fleming.

(N) We, your Committee on Documents, be leave to make the following report: We find that there is 14 churches belonging to this body, and at this session there has been two petitionary letters, which swells this body up to the goodly number of 16 churches. We find on these church letters reported, only two have prayer-meetings. This is not a fair showing and we are sorry to report this of our churches. Only three churches report Sunday schools, and this my brethren looks bad for us, this meeting of Association year. Not as good as last year by half. We do not know of any church asking for the Association the coming year. We pray that there may be more zeal for these particular adjuncts to our churches and take courage and look to the

Lord for greater blessings in the future. Resp. submitted.

There has been very little done in matter of filling the destitution in the Association, I as one of said committee employed Rev. W. A. No other work was done by authority of board. Resp. submitted,
